Kasargod, Kerala-671314

PROFESSIONAL SUMMARY

Aspiring Data Scientist specialized in Python-based machine learning and statistical analysis. Experienced in building classification, regression, and clustering models using Scikit-learn, NumPy and Pandas. Proven ability to translate complex datasets into actionable insights through rigorous data cleaning and visualization. Committed to delivering scalable, real-world solutions through continuous learning and technical excellence.

CORE SKILLS

Programming Languages: Python, C, Java, R

Data Science & Machine Learning: Data Cleaning, Exploratory Data Analysis (EDA), Feature Engineering, Supervised and Unsupervised Learning, Model Evaluation, Classification, Regression, Clustering, Dimensionality Reduction, Big Data Fundamentals

ML Libraries & Visualization: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn

Model Deployment: Flask, FastAPI, REST API Development

Databases: MySQL, MongoDB

Web Development: HTML, CSS, JavaScript, Bootstrap

Tools & Platforms: Git, GitHub, Jupyter Notebook, Google Colab, VS Code, LaTeX

Statistics & Concepts: Probability, Statistics, Hypothesis Testing, Linear Regression

PROFESSIONAL EXPERIENCE

Litmus7

Kochi, Kerala, India

Data Science Intern (Machine Learning Trainee)

Jun 2025 – Jul 2025

- Mastered the end-to-end ML lifecycle, including data cleaning, feature engineering, and model validation.
- Developed proficiency in multivariate EDA to identify statistical patterns and ensure data quality.
- Implemented and tuned unsupervised clustering algorithms to extract insights from complex datasets.
- Applied NumPy and Pandas for advanced data manipulation and high-dimensional data preprocessing.
- Gained experience in translating theoretical algorithms into production-ready Python implementations.
- Collaborated with cross-functional teams to translate business requirements into technical objectives.
- Leveraged Git for version control, maintaining clean and efficient codebases throughout the development cycle.

Litmus7

Kochi, Kerala, India

Python Full Stack Intern

Jul 2024 – Aug 2024

- Acquired expertise in Full Stack Architecture, integrating Python backends with responsive frontends.
- Developed robust CRUD logic and RESTful APIs to ensure efficient data persistence and retrieval.
- Mastered UI/UX principles using HTML, CSS, and JavaScript to build interactive web components.
- Gained hands-on experience in Database Schema Design and query optimization for application stability.
- Strengthened SDLC skills, including modular code structure, collaborative debugging, and testing.
- Implemented error handling and logging mechanisms to enhance application stability and troubleshooting.
- Participated in agile stand-ups, gaining exposure to professional software engineering environments.

EDUCATION

APJ Abdul Kalam Technological University

2023 – 2027

Bachelor of Technology in Artificial Intelligence & Data Science

Mentor Engineering College

PROJECTS

Machine Learning: Clustering & Data Analysis

2025

Technologies: Python, Pandas, NumPy, Scikit-learn

- Conducted Exploratory Data Analysis (EDA) to analyze data distributions, identify patterns, and detect anomalies.
- Performed data cleaning, preprocessing, and feature preparation using Pandas and NumPy.
- Built and evaluated unsupervised clustering models using Scikit-learn to group data based on similarity.
- Implemented end-to-end machine learning pipelines and applied clustering techniques on real-world datasets.

Student Management System (Full Stack Application)

2024

Technologies: Python, HTML, CSS, JavaScript, Database Fundamentals

- Designed and developed a full stack Student Management System to manage student records.
- Implemented backend logic in Python to perform CRUD operations (create, read, update, delete).
- Built responsive frontend interfaces using HTML, CSS, and JavaScript.
- Integrated frontend and backend components to ensure efficient data flow and application functionality.
- Performed database operations, debugging, and testing to improve application reliability.

ADDITIONAL INFORMATION

Soft Skills: Analytical Thinking, Attention to Detail, Adaptability, Teamwork, Decision Making, Teaching

Languages: English, Malayalam, Hindi
